

CHERYL VELEZ

CREATIVE WEB DEVELOPER

It is my passion for elegant design and my talent for web development that equips me with the ability to provide a superior product and service to my employers and their clients.

EXPERIENCE

RTI INTERNATIONAL

| | |
|-----------------------------|----------------|
| Research Programmer/Analyst | 2018 - Present |
| Web/Publications Designer | 2009 - 2018 |

Front-end Development

- program using modern front-end technologies such as HTML, CSS, SCSS, JavaScript, and jQuery
- collaborate with developers to integrate with back-end systems and APIs
- develop engaging, interactive and animated graphics
- adapt designer mockups/layouts to functional websites
- optimize websites for scalability using mobile first methodology
- balance functionality with aesthetics to create engaging user experiences

Visual Design

- create and edit images, icons, logos, and screen mockups using Adobe Creative Cloud (Photoshop, Illustrator, XD)
- design layouts for print and web
- source images and stock photos
- practice brand awareness and work within brand guidelines

Back-end Development

- program using server-side technologies such as PHP, ColdFusion, Node.js, Express, NPM, and React
- manage hosting environments, including database administration
- test, debug, stage and deploy code
- practice version control using modern practices and tools (GitHub, Beyond Compare)
- problem-solve and perform post-deployment support
- adhere to accessibility and security compliance guidelines
